PROFESSIONAL PROFILE

Senior Full-Stack Product Engineer with 8+ years of experience leading the architecture, development, and delivery of secure web applications and SaaS platforms across fintech, healthcare, government, education, NGOs, and commercial organizations.

Proven track record of owning products from technical discovery and solution design through implementation, deployment, and long-term support. Experienced in partnering with business stakeholders to translate complex requirements into scalable software solutions while driving engineering excellence across frontend, backend, APIs, databases, and cloud infrastructure.

Strong expertise in Laravel, PHP, Vue.js, React, Next.js, Nuxt.js, TypeScript, PostgreSQL, MySQL, Docker, and modern cloud technologies.

KEY ACHIEVEMENTS

- Owned the successful delivery of 10+ production web applications across fintech, healthcare, education, government, NGO, and commercial sectors.
- Solely architected and engineered Mazeloot, delivering the platform from product discovery to public beta.
- Retained following the acquisition of Deposits.com by Ingo Banking, continuing ownership of key engineering initiatives.
- Led the architecture of scalable SaaS platforms featuring authentication, RBAC, payment integrations, workflow automation, analytics, and cloud storage.
- Successfully delivered remote software solutions serving organizations across Nigeria, the United States, and international markets.

CORE COMPETENCIES

- Full-Stack Web Development
- Product Engineering
- API Design & Integration
- SaaS Architecture
- Laravel Development
- Vue.js & Nuxt.js
- React & Next.js
- Payment Integrations
- Authentication & Authorization
- Multi-Tenant Applications
- Database Design
- System Architecture
- Technical Leadership
- Cloud Development
- CI/CD
- AI-Assisted Development

TECHNICAL SKILLS

LANGUAGES

- PHP
- JavaScript
- TypeScript

FRONTEND

- Vue.js
- Nuxt.js
- React
- Next.js
- Tailwind CSS
- Inertia.js

BACKEND

- Laravel
- Node.js
- REST APIs
- Authentication
- Authorization
- API Design

DATABASE

- PostgreSQL
- MySQL
- Redis

CLOUD & DEVOPS

Docker • GitHub Actions • Supabase • Firebase • CI/CD

AI & DEVELOPER TOOLS

Cursor • GitHub Copilot • Claude • ChatGPT • Git • GitHub • PHPStorm • VS Code • Postman • TablePlus • Figma • Jira

PROFESSIONAL EXPERIENCE

2018 – Present *Senior Full-Stack Engineer*

STRYDENOX → CYIANIX [Contract · Remote]
Nigeria

Technologies: Laravel, Vue.js, Nuxt.js, MySQL, REST APIs

- Owned the end-to-end delivery of enterprise software solutions for government agencies, healthcare organizations, educational institutions, NGOs, and commercial businesses.
- Led the architecture and implementation of scalable Laravel backend systems powering modern Vue.js and Nuxt.js applications.
- Directed technical discovery, solution architecture, implementation, testing, deployment, and client handover across multiple engagements.
- Owned the delivery of workflow automation systems, administrative portals, payment integrations, and public-facing digital platforms.
- Partnered directly with clients and executive stakeholders to translate business objectives into scalable software products.
- Established reusable engineering patterns and development standards that improved consistency and maintainability across projects.

2021 – May 2026 *Full-Stack Engineer (Vue.js · Laravel)*

DEPOSITS.COM → INGO BANKING [Remote]
Retained through acquisition

Technologies: Laravel, Vue.js, REST APIs, PostgreSQL

- Engineered customer-facing banking products for a US Banking-as-a-Service platform.
- Built administrative dashboards, customer portals, and internal management systems.
- Developed reusable frontend components that improved consistency across multiple applications.
- Improved maintainability through reusable architecture and clean engineering practices.
- Retained following the acquisition of Deposits.com by Ingo Banking.

Jan 2025 – May 2026 *Senior Full-Stack Engineer*
mazeloott.vercel.app

MAZELOOT [Solo Build · Contract · Remote]
Nigeria

Technologies: Laravel, Vue.js, PostgreSQL, Paystack, Flutterwave, Cloud Storage

- Owned the complete product lifecycle, architecting and engineering the Mazeloot platform from concept through public beta as the sole engineer.
- Led all technical decision-making across frontend architecture, backend systems, cloud infrastructure, authentication, analytics, media management, and marketplace functionality.
- Designed and implemented scalable payment infrastructure using Paystack and Flutterwave.
- Defined the overall software architecture, ensuring scalability, maintainability, and future product growth.
- Leveraged AI-assisted engineering workflows to accelerate product delivery while maintaining high software quality.

2020 – 2021 *Back-End Developer*

KEMONAI Nigeria

Technologies: Laravel, JavaScript, MySQL

- Developed secure backend services for financial applications.
- Optimized database performance for data-intensive systems.
- Implemented scalable business logic supporting customer-facing products.

2020 – 2021 *Full-Stack Developer*

ROCKYZWORLD Nigeria

Technologies: Laravel, JavaScript, MySQL

- Led the end-to-end development of investor and staff management platforms while managing the company’s public website, enhancing scalability, performance, and security.

SELECTED PROJECTS

Mazeloot - *https://mazeloott.vercel.app*
Designed and built a cloud-based portfolio and marketplace platform connecting photographers and visual artists across Africa.
Laravel • Vue.js • PostgreSQL • Paystack • Flutterwave • Cloud Storage

Deposits.com
Developed customer portals, administrative dashboards, and financial workflows for a US banking platform.
Laravel • Vue.js • REST APIs • Payment Infrastructure

Cross River State Sports Commission - *https://crssc.cr.gov.ng*
Developed digital services supporting sports administration and public engagement.
Laravel • Vue.js • MySQL

Dr. Austin Mosindi, LPC (USA) - *https://draustinmosindi.com*
Built a healthcare platform supporting online counseling and patient engagement.
Laravel • Nuxt.js • Twillo • Video Conferencing • MySQL

Pitch & Play Studio - *https://pitchplaystudio.com*
Developed a modern digital presence for a creative agency.
Laravel • Nuxt.js • Claude • MySQL

CONMSIT — College of Nursing - *https://conmsit.edu.ng*
Built a role-based management platform for institutional operations.
Laravel • Vue.js • RBAC • Blade • MySQL

Mediatrix Foundation - *https://mediatrixfoundation.org*
Built an organizational platform supporting educational and community initiatives.
Laravel • MySQL

EDUCATION

B.Sc. Computer Science
University of Calabar, Calabar
2016 – 2021

DEVELOPMENT PRACTICES

- Agile
- Scrum
- Git Flow
- Code Reviews
- API-First Development
- CI/CD
- Technical Documentation
